Beverage options

Bar tabs can be provided for your function. Feel free to ask what we think will suit your group best.

Cash Bar:

Guests of the booking and function will purchase consumables on their own accounts.

Subsidised Bar Tab:

A sufficient tab amount is pre-paid before the event date. We will organise with you what the subsidised price for guests will be. An example of this would be if a drink costs \$11, the guest would receive \$5 off per drink resulting in a subsidised price for the guest and a bar tab of \$5 per drink for the host to settle.

Open Bar Tab:

This means the function or booking guests are aware that the consumables are being paid for and accounted for by the booking or the function host. This tab may have a limit, which can be extended as the night goes on at the function host's request. Alternatively, it will be honored if reached, meaning guests will have to purchase consumables themselves afterward.
